Hand Tools

**NEW
2024
RANGE**

Qonnect Hand Tools are designed and built to perform. Whether our basic one-handed tools, or enhanced Power Transmission Tools, all are trusted companions to use on the work floor.

Choose your Rivet- or Rivetnut tool to meet your expected griprange-, material- and diameter demands. Use this leaflet to explore and choose easily from our options offered.

Q-R50

Entry level rivet tool. The spring automatically pushes out the lever, for easy handling. Multi sizes of nosepieces are mounted on the handle, as well as a small spanner. A spare set of jaws is inserted in the body.

Code 03QR50
Blindniete Ø 2.4 | 3.0/3.2 | 4.0 | 4.8/5.0 mm

Q-R64

The two-handed Q-R64 rivet tool gives you more leverage, enlarging your options in material and sizes for standard rivets. Nosepieces are stored in the handle

Code 03QR64
Blindniete Ø 3.0/3.2 | 4.0 | 4.8/5.0 | 6.0 | 6.4 mm

Q-R64LT

This new Lazy Tong rivet tool is 1KGS lighter, than its predecessor. With a single stroke compression action, it can be used perfectly in a straight down or up movement.

Code 03QR64LT
Blindniete Ø 3.0/3.2 | 4.0 | 4.8/5.0 | 6.0 | 6.4 mm

Q-N6

Entry level Rivetnut -bolt tool. The spring automatically pushes out the lever, for easy handling. Mandrel sets for rivetnuts & -bolts are included and easy to change.

Code 03QN6
Blind rivet nuts M3 | M4 | M5 | M6
Blind rivet bolts M4 | M5 | M6

Q-N12

This tool can be perfectly used when working in limited and tight spaces. The internal ratchet system reduces the amount of effort required to install inserts from M4 up to M12 size nuts, for all materials. Mandrels are easily interchanged, using a quick-release system, 3 sizes of bolt pullers are included.

Code 03QN12
Blind rivet nuts M4 | M5 | M6 | M8 | M10 | M12
Blind rivet bolts M5 | M6 | M8

Q-N10

In this new design, the stroke can be adjusted based on rivetnut size and material thickness. Allows you to work on a consistent way and equal force every time. Using a quick-release system. Inserts all materials from M4 up to M10 size and 3 sizes of bolt pullers are included.

Code 03QN10
Blind rivet nuts M4 | M5 | M6 | M8 | M10
Blind rivet bolts M5 | M6 | M8

Q-N10S

This model shares its design and functionality with the Q-N10. The added spindle speeds up the process of turning-on and releasing the tool from the inserted nut or bolt.

Code 03QN10S
Blind rivet nuts M4 | M5 | M6 | M8 | M10
Blind rivet bolts M5 | M6 | M8

Premium Hand Tools

For larger sizes and heavier materials, Premium Hand Tools are your best choice. The Power Transmission enhances your power output on the insert and material. This enlargement of power makes it possible to insert all materials up to M12 Rivetnuts and 6.4 mm structural Rivets.

QR-64PT

This top-of-the-line tool, with patented design, features a Power Transmission. This short multiple stroke action enhances the capacity and enables you to insert standard and structural blind rivets up to 6.4mm, all materials without any effort. Nosepieces are stored in the handle.

Code 03QR64PT
Blind rivets Ø 3.0/3.2 | 4.0 | 4.8/5.0 6.0 | 6.4 mm

QN-12PT

Built on the patented Power Transmission platform similar to the QR-64PT, using a quick-release system. Inserts all materials from M5 up to M12 and 3 Sizes of bolt pullers are included.

Code 03QN12PT
Blind rivet nuts M4 | M5 | M6 | M8 | M10 | M12
Blind rivet bolts M5 | M6 | M8
