

VGrip®
Blind Rivets

First-class fasteners with extended grip range capabilities and a highly aesthetic in-place appearance.

VGrip[®] Blind Rivets

With Extended Grip Range Capabilities

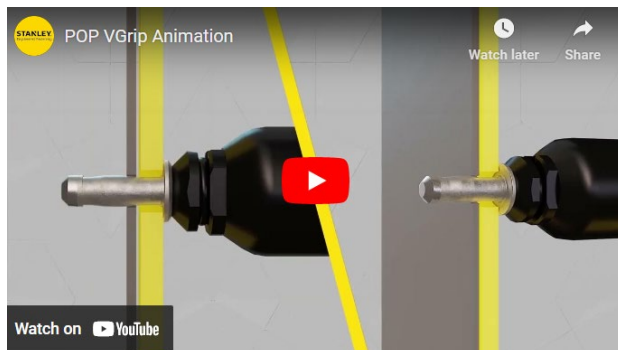

VGrip[®] has extended grip range capabilities and a highly aesthetic in-place appearance. With excellent claim properties, a wide blind side after setting, and many other designed in features, VGrip[®] provides you with first-class fastener performance.

- Extended grip range capability
- Excellent claim properties
- Large blind side
- Positively retained mandrel head
- Grooved stem for optimum tool jaw life

Benefits Of Using VGrip[®]

- SKU reduction and improved stock management
- Rattle-free setting and no damage to application through lost mandrel heads
- Increased tensile strength due to large blind side
- Water resistant joints
- Special soft set and high strength versions available on request

Specifications

Sizes:	4.0 mm to 6.0 mm
Materials:	Aluminium and Steel
Head Styles:	Dome, Large Flange

Installation Tools

Battery-Powered Tools

- PB2500
- PB2500 Smart
- BR12PP-8

Hydro-Pneumatic Power Tools

- Proset[®] XT range

Applications

- Automotive components and interiors
- Domestic appliances
- Heating, ventilation and air conditioning
- Aircraft containers
- Plastic applications
- Trailers
- General industry
